VISHVA N R

Software Engineer — Healthcare Technology

Sirkali, Mayiladuthurai, Tamil Nadu | vishva2002nr@gmail.com | 8925053848 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in healthcare technology, currently managing and enhancing Patient Payment, Insurance, and Eligibility workflows on the athenaOne platform — troubleshooting and fixing production issues, and delivering enhancements to upgrade the application. Skilled across Perl, React, Java, and JavaScript, with growing focus on healthcare interoperability and X12/EDI data exchange. Completed MCA in April 2024, with a track record of shipping full-stack web applications independently.

PROFESSIONAL EXPERIENCE

Software Engineer — CitiusTech Healthcare Technology Pvt. Ltd. *Apr 2024 – Present*

Client Project: AthenaHealth (athenaOne platform) — engaged as Contractor since Jun 2024

- Manage and enhance Patient Payment and Insurance workflow features on the athenaOne platform using a combined Perl and React technology stack.
- Maintain and upgrade eligibility-verification functionality using EDI 270 (eligibility inquiry) and 271 (eligibility response) transaction sets.
- Troubleshoot and fix production bugs in payment and eligibility modules, and deliver enhancements to improve application stability and functionality.
- Work within a large-scale healthcare SaaS codebase, gaining direct exposure to US healthcare billing, insurance, and interoperability standards.

TECHNICAL SKILLS

- Languages: Java, JavaScript, Perl
- Frameworks/Libraries: React.js, Node.js
- Databases: MongoDB, SQL
- Tools: Git & GitHub, Perforce
- Practices & Platforms: Agile/Scrum, Linux

ACADEMIC & PERSONAL PROJECTS

Sports Product Equipment's Platform *Jan 2024 – Present*

- Designing a full-stack e-commerce platform for sports equipment using the MERN stack (MongoDB, Express.js, React.js, Node.js), enabling users to discover and purchase products easily.
- Broke down the application into modular components to independently handle catalog, cart, and checkout functionality.

Hunk Fitness Studio — Landing Website

- Built a responsive fitness studio landing page using React.js, focused on a dynamic, user-friendly interface and an immersive browsing experience.

EDUCATION

Kongu Engineering College 2024
Master of Computer Applications (MCA) — 81.8%

PSG College of Arts & Science 2022
Bachelor of Computer Applications (BCA) — 78.44%

Vivekananda Matriculation Higher Secondary School 2019
HSC — 70.6%

Vivekananda Matriculation Higher Secondary School 2017
SSLC — 87.6%

ACHIEVEMENTS & CERTIFICATIONS

- Top 10 finish, CitiusTech Hackathon — contributed to a team-built HL7/X12-to-FHIR conversion engine (embedding-based mapping, ~700ms per message); built the UI, implemented HL7/X12-to-FHIR parsing and mapping logic, and validated the pipeline against synthetic test datasets.
- NCC 'B' Certificate.
